EDUCATION

Northeastern Illinois University   Chicago, IL
Bachelor of Science in Computer Science   *Aug. 2018 – Dec. 2021*

EXPERIENCE

Security Systems Technician   June 2024 – Present
Safe Haven Security   *Chicago, IL*
- Installed and configured IP-based security systems, including surveillance cameras, S-Line encrypted sensors, and smart home devices, ensuring seamless integration with residential and commercial networks
- Performed network configuration tasks including setting up wireless mesh networks, repeaters, and access points for stable connectivity
- Troubleshooted and resolved network issues including signal interference, bandwidth congestion, and routing conflicts
- Deployed firmware updates on both networking equipment and security devices to ensure compatibility, security, and peak system performance
- Provided end-user education on system usage, best practices, and remote access setup for mobile devices and smart platforms

Software Engineer   June 2022 – May 2023
Genspark   *Alpharetta, GA*
- Developed a RESTful full stack applications implementing MySQL, Spring Boot and React.js
- Integrated email notification functions using AWS CLI, SQS, and SNS
- Completed assignments using Python scripting and Core Java fundamentals – Loops, Arrays, Collections, Classes, OOP, Exceptions, IO Files, Functional Programming
- Completed working with TypeScript, TS compile configuration and debugging, type functions, classes, interface, generics and advanced types, Angular components and templates, dependency injection, directives, CLI, Router & Forms
- Selenium and Testing all Web Elements, Navigation Alerts, Report and Properties, TestNG and Parameterization and Exception Handling

Customer Service Representative   Feb. 2018 – June 2022
Napleton's Arlington Heights CDJR   *Arlington Heights, IL*
- Schedule service appointments for customers using the dealership's booking system, ensuring efficient allocation of resources and optimal workflow
- Maintain accurate records of service appointments, customer information, and vehicle details in the dealership's database system
- Collaborate closely with service advisors, technicians, and other dealership staff to ensure seamless coordination of service operations

CERTIFICATIONS

CompTIA A+   Issued May 2017
CompTIA Network+   Issued July 2017
CompTIA Security+ (SY0-701)   Issued May 2025

PROJECTS

Smart Device Network Analyzer | *Wireshark, Python*   June 2025
- Captured and analyzed household IoT device traffic using Wireshark to identify communication endpoints, protocols, and encryption usage
- Profiled device behavior, potential privacy risks, and documented findings for network hardening

TECHNICAL SKILLS

Languages: Java, Python, MySQL, JavaScript, HTML/CSS, TypeScript
Frameworks: ReactJS, AngularJS, Selenium, JUnit, Spring Boot, .NET Framework, AWS
Tools: GitHub, Git, Visual Studio, Visual Studio Code, PowerShell, Git Bash, Wireshark, VMware, Kali Linux
